LIZ LAKE ASSOCIATES HAD TO MAKE THE DECISION TO STAY WITH THEIR CURRENT SOFTWARE PROVIDER OR TO MAKE THE SWITCH TO KEYSOFT SOLUTIONS SOFTWARE, KEYSCAPE

MAKING THE DECISION TO MOVE TO KEYSCAPE

USING KEYSCAPE THEY WERE ABLE TO IMPROVE THEIR PROCESSES

DRAWINGS AND PLANS CAN BE PRODUCED QUICKER BY MULTIPLE STAFF MEANING QUICK TURNAROUND

FUTURE • FASTER

KEYSCAPE LT

THE MOST ESTABLISHED AND INTEGRATED
CAD SOLUTION FOR THE LANDSCAPE INDUSTRY

CHALLENGE

LIZ LAKE ASSOCIATES HAD TO MAKE THE DECISION TO EITHER STAY WITH THEIR CURRENT SOFTWARE PROVIDER, OR TO MAKE THE SWITCH TO KEYSOFT SOLUTIONS SOFTWARE, KEYSCAPE

We considered both options: to upgrade our existing software and to switch to KeySCAPE, both of which we had received demonstrations of. We were unhappy with the quality of support given by our existing provider and impressed by the presentation given by Keysoft.

Costs were taken into account and carefully weighed up. We found KeySCAPE to be very competitively priced and this coupled with the high standard of support offered by Keysoft Solutions dedicated support team helped us make the choice. Read on to find out how we've done since the swap.

SOLUTION

USING KEYSCAPE THEY WERE ABLE TO EASILY AND QUICKLY IMPROVE THEIR PROCESSES

WHY CHOOSE KEYSCAPE?

- Whilst conscious of the learning curve with a new software package and non-compatibility issues with old drawings, it was considered that once staff were up to speed, KeySCAPE would be quicker and easier to use than our existing provider.
- The promise of a dedicated support team encouraged us.

HAVE PROCESSES IMPROVED?

- Yes, we have multiple staff working at once on drawings
- Ability to copy over planting areas and labels from drawings
- Can produce planting plans quickly
- Faster turnaround of work

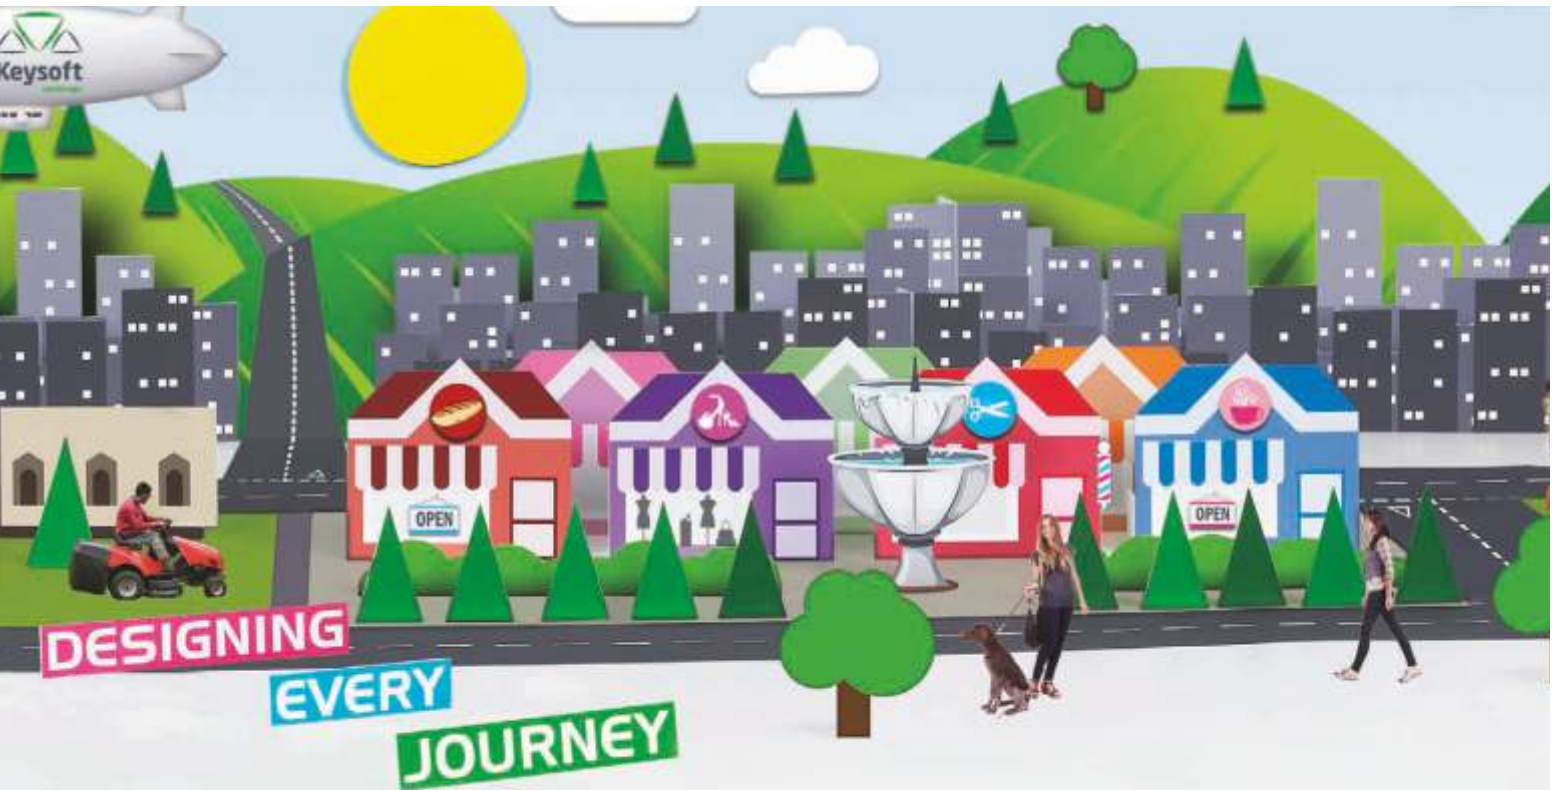

HOW HAVE YOU USED KEYSCAPE?

- KeySCAPE is used on every project requiring drawing outputs, from landscape masterplans, detailed planting plans, detailed hardworks plans and construction drawings.

Projects included the conversion of Walthamstow Stadium into residential development and a new residential scheme at Ebbsfleet Green.

MOST USEFUL FEATURES

- Cloning planting areas
- Quick Specify
- Check Drawing

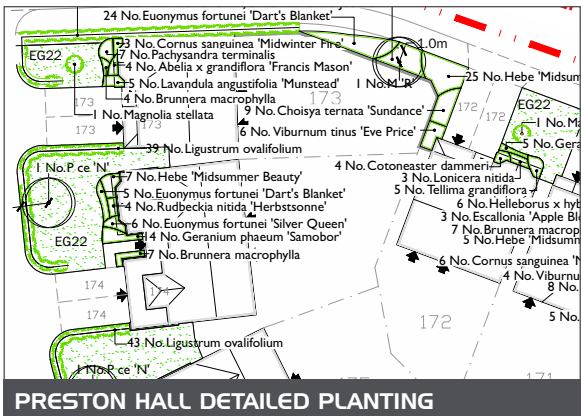

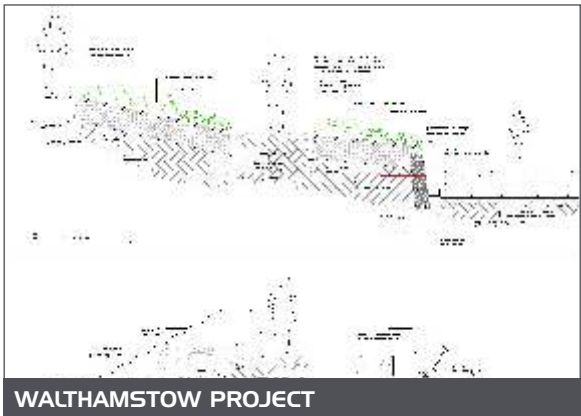

RESULT

**QUICKER TURNAROUND OF WORK
AS MULTIPLE STAFF CAN WORK ON THE SAME
DRAWING**

We have been very impressed with the support team who have solved many issues for us. Problems are sorted quickly enabling less downtime and a quicker turnaround of work. We would definitely recommend others to switch.

“
**KEYSCAPE IS EASY TO USE
SOFTWARE WITH A FANTASTIC
SUPPORT SERVICE.
WE WOULD HIGHLY RECOMMEND
KEYSCAPE.**

KEYSCAPE LT AT A GLANCE

CUTTING-EDGE LANDSCAPE DESIGN SOFTWARE

KeySCAPE encourages you to be creative. Its flexible approach makes it easy for you to develop your own graphic style by adding to our already extensive library of 2D, 3D elevation symbols and creating your own custom linetypes. If you can't see what you need in our database of over 7500 plants, you can quickly add your own species and specifications or import them from your preferred lists.

Making modifications in KeySCAPE is very simple. You can make major drawing changes in minutes, with dynamic schedules ensuring that your drawing is always up to date. Validation features reduce the chance of you issuing drawings with errors. You can apply costs as you design to ensure that you remain within budget.

KEY POINTS

- Softworks and Hardworks
- Own AutoCAD OEM Engine
- Site Survey
- KeyTREE (optional add-on)
- 3D Visualisation
