DRAWINGS QUICKLY**

FUTURE • FASTER

AUTOSTRIPE

ROAD STRIPING SOFTWARE

CLIENT

CREATE COMPLIANT ROAD MARKINGS WHICH CONFORM TO LOCAL ROAD RULES AND HAVE FULL CONTROL OVER VISUAL STYLES

“AutoSTRIPE helped us draw a large volume of road markings from the M1 to the M62 with relative ease, considering we had never used it before. It is a powerful tool.”

Michael Shepherd
Mott MacDonald

CLIENT PROFILE

Mott MacDonald is a global engineering, management and development consultancy focused on guiding its clients through many of the planet's most intricate challenges.

Its engineers, project and program managers have taken lead roles in the world's highest profile infrastructure and development projects.

SOLUTION

AUTOSTRIPE FOR MOTT MACDONALD

AutoSTRIPE helps Mott MacDonald create road marking and traffic management drawings quickly, allowing them to design complex road marking systems with ease.

It also assists in the production of 'green' sustainable strategies while also analyzing the safety factors and costs of their designs.

AUTOSTRIPE

AutoSTRIPE is road striping and traffic management design software for the international market, incorporating a large library of road markings and symbols, which allows engineers to produce compliant road layout drawings in either AutoCAD or MicroStation.

It calculates costs and quantities as you go as well as producing a 3D driver's eye view for safety audits.
