

# KEYLINES EIRE

EASY-TO-USE ROAD MARKING DESIGN SOFTWARE FOR THE REPUBLIC OF IRELAND

## Who?

Traffic Management and Road Safety Engineers

## What?

Road Marking Design Software

## Why?

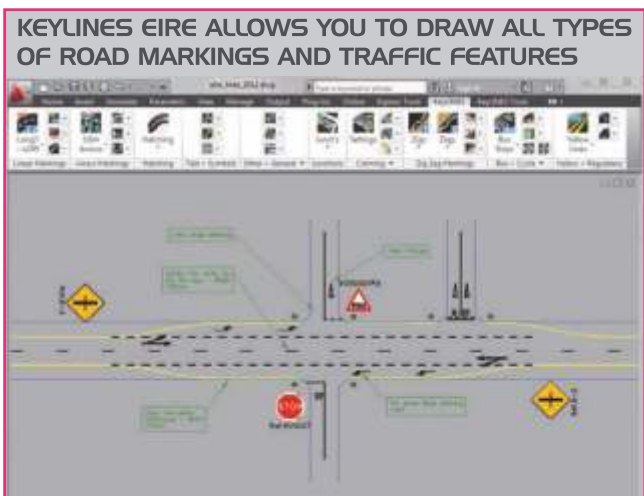

Produce road markings quickly and accurately to Irish Standards

### WHO IS KEYLINES EIRE FOR?

KeyLINES Eire is for traffic management and road safety engineers in the Republic of Ireland.

### WHAT IS KEYLINES EIRE?

KeyLINES Eire allows engineers to produce road marking and traffic management drawings quickly in AutoCAD.

## WHY CHOOSE KEYLINES EIRE?

KeyLINES Eire offers markings to help with green strategies, such as bus and cycle lanes, as well as a range of features to assist in the design of traffic-calming measures, such as tapered humps, speed roundels and specialist surfacing.

You can automatically generate a 3D drivers eye to use as a safety audit tool and for realistic consultation presentations. As your drawing takes shape, KeyLINES Eire allows you to label and calculate quantities of each marking in your design before estimating costs.

CALMING FEATURES DRAWN ONTO A PLAN

## KEYLINES EIRE AT A GLANCE

- Create road marking and traffic management drawings quickly
- Full range of road markings in accordance with Republic of Ireland regulations
- Allows you to design complex road marking systems with ease
- Assists in the production of green strategies and traffic-calming measures
- Analyse the safety factors and cost of your design
- Keysoft Solutions' support services include training, user group meetings and upgrades, to keep you up to date with standards and legislation
