KEYSCAPE

PROFESSIONAL LANDSCAPE DESIGN SOFTWARE

CLIENT NEED

SOME 18 YEARS AGO, REALISING THAT TECHNOLOGY WAS MOVING FORWARD AND WITH AN INCREASING NEED TO RECEIVE AND SUPPLY DATA DIGITALLY WE CAME TO THE CONCLUSION THAT CAD SOFTWARE WAS ESSENTIAL.

“We have used KeySCAPE as our sole office CAD software from the outset so we use KeySCAPE on every project”

Andrew King
New Leaf Studio

CLIENT PROFILE

Since forming in 1996, New Leaf Studio Chartered Landscape Architects have gained a sound reputation for delivering award winning, client led services in the fields of landscape design, urban design and landscape management.

Based in Bristol they have clients in both the public and private sector spread across the whole of the South of the UK and the Midlands.

SOLUTION

KEYSCAPE FOR NEW LEAF STUDIO

When choosing CAD software, the softworks functions were an important factor to consider. KeySCAPE allows us to produce planting plans efficiently and to automatically generate schedules, with the capacity to then easily make amendments with changes automatically carrying through to the schedule.

The transition to KeySCAPE from our old paper drawing process enabled:

- 1) Greater efficiency of working, especially in producing planting plans and outputting schedules
- 2) Greatly improved efficiency when making revisions to drawings
- 3) Better exchange of information between disciplines, enabling improved co-ordination, identification of potential conflicts, and resolution of problems before work begins on site
- 4) Use of colour in drawings that would've been too time consuming to produce and too costly to reproduce before
- 5) A far greater degree of accuracy that helps highlight potential “appearance and fit” issues

KEYSCAPE

KeySCAPE offers a single solution that takes you from concept through detailed design and contract documentation and beyond. Enhanced utilities and presentation options allow you to quickly create and modify design proposals to meet the changing requirements of clients. Our flexible design approach allows you to customise the system and manage processes to streamline your workflows.
